WHAT IS A 351 EXCHANGE?

A **351 Exchange** is a tax-free exchange that allows investors to contribute appreciated property and securities in exchange for shares of a newly formed corporation, in this case, a new ETF, ticker AAUS. We believe AAUS via a 351 Exchange may help to simplify equity portfolios and maintain exposure to the US equity market."

For a portfolio to qualify, it must meet two diversification tests:

- ✔ **No more than 25% in a single issuer.**
- ✔ **No more than 50% of the portfolio's value concentrated in five or fewer securities.**

WHY CONTRIBUTE TO AAUS FOR YOUR 351 EXCHANGE?

The Alpha Architect U.S. Equity ETF (AAUS) provides:

- **Core U.S. Equity Exposure** - A market-cap-weighted ETF tracking the largest U.S. stocks.
- **Tax-Deferred Reallocation** - Via the 351 Exchange, exchange property (stocks, ETFs, etc.) for AAUS while maintaining market exposure.
- **Portfolio Simplification** - Consolidate highly appreciated and concentrated holdings into a diversified, exchange-traded vehicle.
- **Strategic Dividend Management** - AAUS seeks to take advantage of investor's excess demand for certain dividend paying securities.

ETF INVESTING, WITHOUT THE COMPLEXITY.

Architect**

ETF INVESTING, WITHOUT THE COMPLEXITY.

IMPORTANT RISK INFORMATION: Investors should consider the investment objectives, risks, charges and expenses carefully before investing. For a prospectus with this and other information about the Fund, please call (215) 882-9983 or visit our website funds.AlphaArchitect.com. Read the prospectus or summary prospectus carefully before investing.

While AAUS has an effective prospectus, it will not be traded until sometime in June 2025.

Investing involves risk, including possible loss of principal.

Equity Securities risk. Equity securities, such as common stocks, are subject to market, economic, and business risks that may cause their prices to fluctuate.

Non-Diversification risk. As a non-diversified fund, the Fund may invest a larger portion of its assets in the securities of one or a few issuers than a diversified fund. A non-diversified fund's investment in fewer issuers may result in the fund's shares being more sensitive to the economic results of those issuers. An investment in the Fund could fluctuate in value more than an investment in a diversified fund.

New Fund Risk. The Fund is recently organized, giving prospective investors a limited track record on which to base their investment decision.

The Funds are distributed by Quasar Distributors, LLC. The Fund investment advisor is Empowered Funds, LLC, doing business as Alpha Architect.
